Your Satisfaction is our Job

Dear Sirs,

We propose foreign language trainings and lessons, corresponding to your needs and requirements. Also to reach your objectives, except the individual lessons our class-rooms consist only of 10 people and not more.

A level estimation is realized at the start. An interview is also necessary to estimate your speaking level and also ,to establish your real motivations and objectives to reach.

Of course it is important to participate actively during the lessons and to work regularly at home.

We can also ensure you teaching lessons on skype or in videoconference to allow you to improve your understanding level and reach the perfect accentuation.

It is also possible to ensure lessons for children. Of course the learning means are not the same for children and adults. As far as children are concerned educational fun teaching means are used to teach foreign languages to children, whereas for adults andragogical teaching means are used.

Best Regards,

All the Team of ET NEVEN

Collaboration Conditions

Dear Sirs,

We aim not only to satisfy you, but also to help you and reach your linguistic objectives.

Your lessons can be paid by yourselves, whether it consists of private or professional frame, but also by your company. That can be negotiated as soon as the lessons start. According the level, student or lesson number, the price can also be reviewed. It is more interesting if you allow us to have new students. For instance if you participate directly to obtain a new student for ten hours, your price can be reduced according to the number of students, that you can bring us.

When you decide to be subscribed for lessons, our price consists of subscription tasks and the first lesson, if you decide not to take directly a package with ten lessons and they must be paid within seven days, after you are subscribed.

The organization CADRES en mission establishes the order.

Best Regards,

All the Team of ET NEVEN
