Of course it is important to participate actively during the lessons and to work regularly at home.

We can also ensure you teaching lessons on skype or in videoconference to allow you to improve your understanding level and reach the perfect accentuation.

It is also possible to ensure lessons for children. Of course the learning means are not the same for children and adults. As far as children are concerned educational fun teaching means are used to teach foreign languages to children, whereas for adults andragogical teaching means are used.

Collaboration Conditions

Dear Sirs,

We aim not only to satisfy you but also to help you and reach your linguistic objectives.

Your lessons can be paid by yourselves, whether it consists of private or professional lessons, but also by your company. That can be negotiated, as soon as the lessons start. According to the level, student or lesson number, the price can also be reviewed. The more you bring us new students, the cheaper your price can be. For instance if you participate directly to obtain a new student for 10 lessons at least, your price can be reduced.

When you decide to be subscribed for lessons, our price contains subscription tasks and the first lesson, if you decide not to take directly our package with 10 lessons.

The organization CADRES en mission orders you the lessons.

Best Regards

All the Team of ET NEVEN

Mission Time

The Company ET NEVEN works in partnership with the two following organizations CADRES en mission and HR Formation&Conseil.

We work in the frame of wage portage. The wage portage consists of short-time missions with well-defined objectives, purposes, aims. That corresponds perfectly to the needs of most of companies, that can not create and hire full-time or short-time contracts. Their needs are in short-time and clear in the frame of the actual slump. Possibly it is possible to work together in the future for several short-time missions and all missions are independent ones from the others.

For further information, do not hesitate to contact us to the following electronic address et_neven@yahoo.fr or to the phone number (+33) (0)826 81 44 04 or on skype to the following pseudos cheret_laurent or neli.tomova3
